

Georgia Analyzer System Message

Georgia's Clean Air Force (GCAF)

July 2, 2008

Message: 38830 Analyzers: 1028

New Inspector Certification Application

The Inspector Certification Application has been updated and posted to the GCAF Web site.

Effective July 1, 2008, GCAF **will not** accept the old application.

The new application includes a signature line for the station owner/manager. The owner/manager must sign the application **and** must call GCAF to schedule their inspectors for training. Likewise, it is the manager's responsibility to prepare employees for training and remind them of the proper class start times.

Visit the GCAF Web site today and download the new Inspector Training Application.

For more information, contact GCAF Station Assistance at 800.449.2471, option 2.

If you would like to receive an e-mail copy of GAS messages or to be added to our quarterly e-newsletter, *RepairWatch* E-News, please send a request to info@cleanairforce.com.

~ GCAF recommends printing all GAS messages for your files and posting them in a prominent location for your employees to read. To retrieve or print a previous GAS message, go to the GAS message retrieval function in your analyzer and select the appropriate message to print (the analyzer holds up to 100 messages). ~
